

AUVSI enters the second half of 2026 with policy momentum and a member community that has never been more essential to the autonomy ecosystem. As **domestic manufacturing policy, defense modernization, counter-UxS demand, cyber requirements, BVLOS regulation, and country-of-origin scrutiny** converge, organizations need more than market awareness, they need a seat at the table. AUVSI membership gives you direct access to the leaders, intelligence, and policy forums shaping what comes next.

**FOR C-SUITE, GOV AFFAIRS & BD****Access to Leaders & Decision Makers**

Direct lines to the people setting the agenda for autonomy's next chapter

- Direct engagement with defense, civil, and commercial autonomy leaders to get you in the right rooms, with the right people, at the right time for impact
- Direct access to leaders through member-only meetings, happy hours, and exclusive events, including at XPONENTIAL and AUVSI Hill Day.

**FOR BD & CORPORATE STRATEGY****Business Intelligence & Market Positioning**

The data and context to defend, and expand, your market position

- Intelligence briefings and continuous policy tracking
- **Federal Defense Spending intelligence** on uncrewed systems and mobile robotics
- Research on manufacturing challenges, supply chain vulnerabilities, and industrial base analysis
- Access to the **Uncrewed Systems & Robotics Database**

**FOR GOV AFFAIRS, BD & CAPTURE STRATEGISTS****Early Policy Intelligence**

See regulatory change before it becomes a requirement

- First-look insight into UxS integration, BVLOS, and defense procurement policy developments
- Compliance requirement tracking before rules take effect
- Working group participation that shapes — not just monitors — regulatory outcomes

**FOR C-SUITE & GOV AFFAIRS****Shape Industry Priorities**

A hand in writing the rules your competitors will have to follow

- Advocacy behind 2026 endorsements including the GUARD Act, Connected Vehicle Security Act, National Commission on Robotics Act, and Make More in America Act
- A voice in the committees defining industry standards before they're finalized
